

Educational Kinesiology 4 Numeracy*

Using Brain Gym to help with maths
and numeracy development

London
2 & 3 April 2016

Sue Peace, specialist Mathematics/Numeracy Teacher &
Accredited Educational Kinesiology Instructor

Are you:

An Edu-K or other kinesiology practitioner with clients who need help with numeracy?

A teacher or educator supporting maths and numeracy learning?

Keen to develop your own numeracy skills?

The course aims to:

- Increase your confidence and knowledge when clients need help with maths and numeracy
- Deepen and broaden your understanding of Brain Gym movements such as Double Doodle and Lazy 8 in the context of maths
- Enhance your maths and numeracy teaching
- Raise your student's confidence in their numeracy abilities by working with the basic skills that underlie numeracy
- Enhance your own numeracy skills

The course is suitable for early years through all the school years and beyond to adults.

Course hours: 12 class teaching hours

Course venue: 12 Golders Rise, Hendon, London NW4 2HR

Sponsor: 3D Seminars
