

# Kinesiology 4 Numeracy

Fully accredited by Brain Gym International

Limited to 10 delegates

A creative workshop using Kinesiology and Brain Gym® techniques to support those people who find Numeracy/Mathematics challenging

Monday 6th and Tuesday 7th April, 2020

Bangor University, Wales, UK

The home of the Miles Dyslexia Centre.

*"When clients come with literacy difficulties it is relatively easy to see what's going on for them because I can ask them to read or write for me. That can be very revealing and usually triggers my next step. However, I have never been quite sure exactly where to begin when clients have talked about difficulties with mathematics. Doing this course with Sue has really helped me to understand the nature of numeracy issues and has given me a way in."*

Jennifer Hand - TFH and Brain Gym® Instructor, London 2015

**Situated on the beautiful  
Menai Straits between  
the mountains of  
Snowdonia and the  
beaches of Anglesey.**
